

FLOWERING TIMES

COLLECTION

	Image	Height	Width	Form	Flower Colour	Flower Time	Position	Cultural Notes	Frost Tolerance	Heavy Rainfall Tolerance
Always Red (♾)		0.35m	0.3m	Slow stemming and clumping	Blood red	Summer, autumn and winter	Full sun	Water occasionally but more regularly in summer	Moderate	High
Andrea's Orange™ (Aloe hybrid LEO 4363(♾))		0.3m	0.3m	Neat compact slow clumping aloe	Shiny orange flowers - very showy	Autumn and winter	Full sun	Water occasionally but more regularly in summer	Moderate	Medium
Aries™ (Aloe hybrid LEO 4134)		0.3m	0.12m	Clumping - striking short leaves with spots and soft decorative edge	Flowers are not significant. This cultivar is grown more for its trailing leaf form	When ready, summer, autumn, winter & spring	Full sun/ semi shade	Trailing nature - allow to cascade over pot or retaining wall. Water occasionally but more regularly in summer	Low	Medium
Big Red™ (Aloe hybrid LEO 0002)		1.8m	1.0m	Single stemming	Red	Winter	Full sun	Newly planted specimens may need to be staked until roots establish to prevent falling over	Moderate	High
Bottlebrush™ (Aloe hybrid LEO 1463)		2.0m	1.0m	Single stemming	Yellow buds opening to orange	Late winter/ early spring	Full sun	Water occasionally but more regularly in summer	Moderate	High
Bumble Bee™ (Aloe hybrid LEO 6658)		0.2m	0.2m	Stemless ornamental ball-shaped plant with warty soft spines	Red	Winter	Full sun	For good flowering heat, good drainage, good food and full sun is required	Moderate	Moderate
Bush Baby Yellow™ (Aloe hybrid LEO 4520(♾))		0.3m	0.3m	Clumping plant with white spots and well structured rosettes	Long lasting supply of yellow flowers	Long flower season from mid summer to winter	Full sun	Water occasionally but more regularly in summer	Low	Medium
Capricorn™ (Aloe hybrid LEO 4538)		1.5m	1.2m	Single stemming	Red to white bicoulor	Early winter	Full sun	Odd shoots can sometimes form - remove if apical dominance is desired. Water occasionally but more regularly in summer	Moderate	High
Copper Shower (♾)		0.9m	0.5m	Hybrid of Aloe arborecens which forms a shrub	Bronzy orange	Late summer to mid winter	Full sun	Likes regular watering in summer	Light	High
Diana™ (Aloe hybrid LEO 4325)		1.3m	0.6m	Stemming, but shoots to form shrub - branches carrying lime green leaves can trail at maturity	Pastel pink to white bicoulor	Winter	Full sun	Water occasionally but more regularly in summer	Light	High
Eager Beaver™ (Aloe hybrid LEO 1086B)		1.4m	1.0m	Single stemming Aloe ferox hybrid but can form a shrub	Bright orange	Early winter	Full sun	Water occasionally but more regularly in summer. Remove odd shoots if apical dominance desired rather than shrub form	Moderate	High
Erik the Red (♾)		2.0m	0.8m	Tree like, single stemming with long large leaves and prominent (but safe) spine	Blood red	Winter	Full sun	Water occasionally but more regularly in summer	Moderate	High
Fairy Pink (♾)		0.25m	0.2m	Clumping - dainty soft green leaves	White with pinkish tinge	Late summer to early autumn	Full sun/ semi shade	Plant in container or in a well protected position with very free draining raised soil. Water occasionally but more regularly in summer	Low	Low
Fireworx™ (Aloe hybrid LEO 5392)		0.6m	0.6m	Rosette of nicely shaped leaves turn pink in winter	Reddish pink	No fixed flowering period - capable of flowering at any time during the year but more so in the cooler months	Full sun	Water occasionally but more regularly in summer	Medium	High
First Gold™ (Aloe hybrid LEO 3675A)		0.8m	1m	Unique spotted green leaves which turn a reddish brown during the coldest time of the year	Multiple tall golden yellow flower spikes	Repeat flowering from late summer through autumn and winter	Full Sun	Water occasionally but more regularly in summer	Medium	High
Gemini (♾)		0.3m	0.2m	Clumping with ball-shaped symmetrical rosette	Pale orange	Winter	Full sun	Shoots can be removed to maintain ball shape. Water occasionally but more regularly in summer	Moderate	High
Ivory Dawn™ (Aloe hybrid LEO 4744)		0.8m	1m	Stemless with well formed rosette of smooth leaves	Reddish pink to Ivory bicoulor	No fixed period- Repeat flowering over 12 months	Full Sun	Water occasionally but more regularly in summer	Medium to high	High

FLOWERING TIMES

COLLECTION

	Image	Height	Width	Form	Flower Colour	Flower Time	Position	Cultural Notes	Frost Tolerance	Heavy Rainfall Tolerance
Laser Show™ (Aloe hybrid LEO 8552)		0.6m	0.6m	Broad leaves turn red in winter. Leaf tip die back is normal	Red	Winter	Full Sun	For good flowering apply fresh compost each year	Moderate	High
Moonglow (D)		1.0m	0.5m	Single stemming	Pale yellow	Winter	Full sun	Odd shoots can sometimes form – Remove if apical dominance is desired. Water occasionally but more regularly in summer	Moderate	High
Mountain Gem™ (Aloe hybrid LEO 3319)		0.2m	0.2m	Stemless- small ball shaped with blue-grey leaves and soft white spines	Large pastel red to cream bicoloured flowers	Winter	Full Sun	For good flowering, heat, good drainage, good food and full sun is required	Medium	Medium
Outback Orange™ (Aloe hybrid LEO 8542)		1.0m	1.3m	Slow stemming	Orange	Winter	Full sun	Odd shoots can sometimes form – remove if apical dominance is desired. Water occasionally but more regularly in summer	Light	Medium
Rias™ (Aloe Hybrid LEO 2267)		1.5m	1m	Single stemming	Brick red to orange bicolour	Winter	Full Sun	Water occasionally but more regularly in summer	Medium	High
Ruby Blaze™ (Aloe hybrid LEO 8552)		0.7m	0.5m	Slow stemming with dark green leaves	Bright red flower buds- can bear +150 separate flower clusters	Autumn and winter	Full Sun	Water occasionally but more regularly in summer	Medium	High
Saturn™ (Aloe hybrid LEO 8544)		1.5m	1.3m	Single stemming but side shoots can appear	Red to yellow bicolour	Late winter	Full sun	Odd shoots can sometimes form – remove if apical dominance is desired	Moderate	Medium
Sirius™ (Aloe hybrid LEO 3718)		0.5m	0.5m	Clumping	Orange	Late winter	Full sun	Very free draining soil required. Do not over water in summer	Light	Low
Southern Cross (D)		0.6m	0.6m	Stemming but form shrub – Fat grey leaves with red decorative edge	Yellow	Mid winter	Full sun	Remove shoots if single stem formation is desired. Water occasionally but more regularly in summer	Light	Medium
Sparkler™ (Aloe hybrid LEO 6140)		0.3m	0.25m	Short stem with longish green leaves	White when buds open	Repeat flowering over Autumn and winter	Full Sun	Water occasionally but more regularly in summer	Medium	High
Spots N Dots™ (Aloe hybrid LEO 6132)		0.4m	0.3m	Beautifully shaped greyish leaves containing numerous spots and dots	Red to yellow bicolour	May to September	Full sun	Performs better with water in summer	Medium	High
Super Red™ (Aloe hybrid LEO 3711)		1.5m	1.0m	Green-grey plant grows stem early. The rosette divides close to maturity	Masses of bright red flowers	Late summer to winter	Full sun	Water occasionally but more regularly in summer	Moderate	High
Tangerine Tree™ (Aloe hybrid LEO 4306)		2m	1.2m	Single stemming tree aloe (hybrid of thraskii)	Orange	June to August	Full sun	Requires water in summer	Medium	High
Topaz (D)		0.3m	0.2m	Clumping with soft grass-like leaves	Pinkish orange	Mid summer to early winter	Full sun/ semi shade	Prefers regular watering, particularly in summer	Light	High
Tusker™ (Aloe hybrid LEO 6074)		1.5m	1.0m	Single stemming Aloe ferox hybrid but can form a shrub	Ivory	Early winter	Full sun	Odd shoots can sometimes form – remove if apical dominance is desired. Water occasionally but more regularly in summer	Moderate	High
Venus™ (Aloe hybrid LEO 5249)		0.6m	0.5m	Slow stemming with thinnish green leaves	Red to white bicolour	Autumn and winter repeat flowering	Full Sun	Water occasionally but more regularly in summer	Medium	High
Winter Bells™ (Aloe hybrid LEO 8521A(D))		0.2m	0.15m	Dainty clumping plant with narrow dark green leaves with a reddish spiny edge	Old ivory	Late summer to winter	Full sun/ semi shade	Shoots can be removed to improve flowering Water occasionally but more regularly in summer.	Low	Medium
